*Concepts for dietary supplements*

## Concepts for healthy living

Finzelberg has taken on this responsibility for 125 years – by manufacturing extracts for the phytopharmaceutical industry.

Under the new umbrella brand **nutrifin** we combined our competence and experience in phytopharmaceutical extracts and have developed innovative concepts for healthy living. **nutrifin** solutions fulfill the desire of your clients for better health and ultimately ensure your business success.

### **Recognizing future trends**

Health professionals are increasingly alarmed: Today's diet, for a large part of the population, is not sufficient to ensure a balanced diet and proper nutrition. There are many contributing factors.

Consumption of fast-food and alcohol as well as smoking can lead to deficiencies in nutritional needs and result in sickness.

The elderly and chronically sick are at higher risk and have, as do weekend warriors and professional athletes, a higher demand for vital nutrients.

### **nutrifin – custom-tailored to your needs**

We trust in the power of nature because that's the root of our success. Our innovative products function on the basis of natural actives maintaining health and providing the required vital nutrients.

For every need, whether to relax, to vitalize, to manage weight, to assist the cardiovascular system or to protect your joints – **nutrifin** offers you the solution with an ever increasing portfolio.

### **Our approach: innovative solutions**

Nobody knows your market as well as you do. That's why we prefer to develop **nutrifin** solutions directly with you – tailor-made and complete from one source.

Our services range from the initial idea to product development, scientific research and human clinical studies as well as technical support and marketing strategy. Of course, our quality management system is utilized throughout the process. Proprietary formulations and intellectual properties help you achieve success.

Convince yourself with our range of **nutrifin** solutions!

### **nutrifin appeal** **Intelligent weight management**

Overweight is an ever increasing problem, but weight loss is only healthy when done in harmony with our body.

nutrifin appeal gently activates the metabolism and supports weight loss naturally.

Active plant extracts from:

- Green Tea
- Asparagus
- Bean

### **nutrifin relax** **Inner calm brings balance and strength**

Daily stress puts us out of balance. As a beverage or lozenge nutrifin relax combines aromatherapeutic elements with active plant extracts to return balance while improving concentration and productivity.

Active plant extracts from:

- Hops
- Oats
- Melissa

Aromatherapeutic component:

- Lavender

### **nutrifin circulation** **Keep heart and circulation in harmony**

Today's poor diet diminishes the likelihood of healthy blood circulation which is essential in delivering sufficient oxygen and nutrients to the body. nutrifin circulation combines the traditionally known power of bear's garlic with benefits of pure olive oil - to cleanse the blood and support circulation.

Active plant extracts from:

- Bear's garlic
- Olives

# nutrifin

## **nutrifin motion** **Stay active through natural joint protection**

Wear and tear of joints occur naturally as part of the aging process, but also as a result of sports activity. nutriffin motion provides natural protection for the joints.

Active plant extracts from:

- Celery
- Ginger
- Licorice

## **nutrifin energy** **Power for body and mind**

Energizing benefits of coffee and tea as a beverage are well known. nutriffin energy is based on the arctic plant: Rhodiola rosea. The plant provides energy and increases stress resistance – without impacting the body's natural balance.

Active plant extracts from:

- Rhodiola rosea

**Additional nutriffin solutions are constantly under development.**

**They include:**

protect – strengthen the immune system

for men – for men's health

for women – for women's health

vision – maintain good eye health

osteo – maintain strong bones

smart – optimal cognitive performance
